Elizaveta Malkova

Objective

Applying for a position of a QA Engineer

Summary

I am looking for new opportunities in the field of manual testing. Based on my relevant experience, strong theoretical knowledge in the field of software testing, I can perform quality testing of your product. I am attentive to details, self-sufficient, I have strategic thinking and a strong analytical mind. I can work in a team and I can organize people. All this, I believe, is the key to the successful fulfillment of duties.

Reason for applying for a job

Currently, I'm focused on extending my Functional testing skills and I'm interested in learning and implementing Automated Testing Skills. My priority goal is to obtain a position in a company that offers a variety of challenging projects with growth potential in terms of individual and professional development.

Projects

Food website	[JavaScript]
Game of Thrones website	[React]
Learn redux	[React, Redux]
Learn design from figma	[HTML5, CSS3, React, Redux]
Order food application	[React, Redux]
